Inspired by the **best**

Rechargeable hearing aids

Alpha XT

bernafon®
Your hearing · Our passion

Bernafon Alpha XT is inspired by those in the animal kingdom with exceptional hearing. It features Bernafon's most advanced Hybrid Technology™ for natural and high-quality sound.

Rechargeable and equipped with wireless connectivity technology, Bernafon Alpha XT combines exceptional sound quality with versatility and elegance.

Inspired by the best.

Hybrid

Bernafon Alpha XT uses Hybrid Technology™ to simultaneously augment both speech understanding and listening comfort.

Rechargeable

The Alpha XT hearing aids come in two rechargeable styles. They recharge in under 3.5 hours and last all day long. Go about your day with confidence and peace of mind.

Comfortable

Designed to be attractive and discreet to wear, Bernafon Alpha XT sits comfortably behind the ear for a secure fit all day long.

Versatile

Bernafon Alpha XT streams sound directly from your smartphone and other audio devices. With the intuitive Bernafon App, you can easily monitor and control your hearing aids and benefit from remote support from your hearing care professional.

Hybrid Technology™ for best sound without compromise

An industry first, Hybrid Technology™ unifies two processing approaches into one hybrid hearing system. By combining strengths, it can process sound optimally in countless listening situations.

Better understand the conversation at hand, even in noisy situations. Speech is amplified in real-time and with high precision for clear sound quality.

Hear more comfortably thanks to effective reduction of disturbing background noise. Feedback is eliminated before it becomes audible.

Enjoy being outdoors while better protected from disturbing wind noise.

Become more aware of your environment and appreciate again the chirping of birds and rustling of leaves. Bernafon Alpha XT carefully preserves environmental sounds and reproduces them naturally.

Immerse yourself in high-quality, rich music sounds with the specifically designed Music Experience program.

Rechargeable for a full day of use, including sound streaming

With the rechargeable Alpha XT hearing aids, you can forget about buying or changing batteries. Simply put the hearing aids in the charging station overnight and comfortably start your day.

Or make use of the **portable Charger Plus**. Equipped with a power bank, it offers 3 full charging cycles of two hearing aids without the need for a power supply. Recharge the power bank of the Charger Plus in only 4 hours and travel comfortably and hassle-free.

Bernafon Alpha XT is available with a rechargeable lithium-ion or non-rechargeable zinc-air battery in the styles: miniRITE T, miniRITE T R, miniBTE T, and miniBTE T R.

Convenient direct sound streaming

Bernafon Alpha XT hearing aids connect to external audio devices* via 2.4 GHz Bluetooth® Low Energy wireless technology. Answer phone calls, enjoy music, or listen to audio books – your hearing aids function as high-quality stereo headphones and stream sound for many hours.

Download the new **Bernafon App** to easily control volume, programs, and check on battery level. Or utilize the "Find my hearing aid" function, just in case. Use the Remote Fitting function to connect to your hearing care professional and get your hearing aids fine-tuned remotely.

Benefit from **hands-free communication** when using an iPhone* or iPad*.

Accessories for additional support

The **SoundClip-A** is a small allrounder. Clip it to your jacket and connect it to your smartphone for hands-free phone calls. Or use it as a remote microphone to improve communication over distances of up to 20 meters.

The **TV-A** lets you stream TV entertainment into your hearing aids. Enjoy the latest action movie in stereo sound quality. Meanwhile, your friends or family can watch TV with you at the volume best suited for them.

The **RC-A** is a remote control with excellent tactility. Use it to change the program and volume of your hearing aids easily and discreetly.

Established in Switzerland in 1946, we have worked ever since in the spirit and tradition of our founders to develop solutions that help people with hearing difficulties. Our Swiss heritage, leading technology, and high performance products help us fulfill our goal:

Together we empower people to hear and communicate better.
